

PBGS+

PINEBARK AND GRAPESEED EXTRACTS

In Awe of Antioxidants

Rusted metal, faded paint, an apple that has turned brown—are all examples of the natural phenomenon oxidation. Every day oxidation takes place in your body, forming free radicals. When excessive, free radicals can create imbalances that lead to oxidative stress and disturbances in cellular function. Fortunately, just as nature gives us these free-roaming radicals, it has also provided us with a way to cope. This coping mechanism is called antioxidants.

Antioxidants are protective agents, found throughout nature and in the body, that help manage the effects of free radicals. They work by donating an electron to a rampaging free radical and transforming it into a non-threatening compound. Antioxidant nutrients are known to help protect cellular structure and support healthy cellular function.

PBGS+ is a potent formula that combines the “super antioxidants” found in pine bark and grape seed extracts with a blend of citrus bioflavonoids, cranberry powder, quercetin, green tea and other healthful nutrients. This formulation is then fortified with a proprietary Nutrient Delivery System (NDS) composed of a blend of digestive enzymes that enhance absorption.

Key Points

- **Super Antioxidant Power:** PBGS+ contains 50 mg of Oligomeric Proanthocyanidins (OPCs) from pine bark and grape seed extracts. A highly specialized group of bioflavonoids, OPCs are among the most powerful antioxidants known, up to 50 times more potent than vitamin E, and up to 20 times more powerful than vitamin C.
- Providing a broad range of valuable health support, OPCs have been shown to promote:
 - Healthy blood flow and structural strength of blood vessels
 - Circulatory system health and function, by supporting nutrient and oxygen delivery to cells, capillary wall health and vein integrity
 - Cellular health and function throughout the body
 - Immune system health
 - Joint and muscle health
 - Brain health
 - Eye health

Did you know?

OPCs cannot be produced by the human body; they must be obtained through the food you eat or through supplementation.

Technical Point

- PBGS+ contains 50 mg of Oligomeric Proanthocyanidins from pine bark (standardized to 85% polyphenols) and grape seed (standardized to 95% leucoanthocyanins).

DIRECTIONS:

Take one tablet per day during the first week for each 50 pounds of body weight, then from one to six tablets per day as desired.

PBGS+ contains 50 mg of 4Life's proprietary OPC blend.

Serving Size: One (1) Tablet

Servings Per Container: 60, 120

Supplement Facts

Amount Per Serving	%DV
--------------------	-----

Vitamin C (as calcium ascorbate)	5 mg 8%
----------------------------------	---------

*NDS Digestive Enzyme Blend (100 mg) contains the following: Fungal Protease (*Aspergillus oryzae*), Fungal Amylase (*Aspergillus oryzae*), Fungal Lipase (*Rhizopus oryzae*), Cellulase (*Aspergillus niger*), Pectinase (*Aspergillus niger*); Proprietary OPC Blend (50 mg) contains the following: Grape Extract (seed) (95% oligomeric proanthocyanidins), Maritime Pine Extract (bark) (95% oligomeric proanthocyanidins); Grape Extract (skin) (30% polyphenols) 39 mg; Citrus Bioflavonoids (orange, grapefruit, lemon, lime and tangerine peel) 10 mg; Cranberry Extract (fruit) 10 mg; Green Tea Extract (leaf) 5 mg; Acerola (from cherry fruit) 5 mg; Rutin 5 mg; Quercetin 5 mg; Apple (fruit) 5 mg

* Daily Value (DV) not established

Other Ingredients: Microcrystalline cellulose, cellulose, acacia gum, silicon dioxide, magnesium stearate.
